November	26	1349–1418
December	10	1419–1486
December	24	1487–1552

A

ATC cycle-progress timer....*1464
Vernier set timers....*1134
Abrasive Engineering reamers resized.... 314
Abrasive Machine Tool internal grinder..*982
Abrasives—Abrasive cutting, H. G. Robinson, pt. 1, *206; pt. 2, *275; pt. 3...*332
Behr-Manning coated abrasives....*1068
Blind holes honed by special stones, L. P. Jackson....*443
Surfacer, Hammond....*420
Weldon Roberts abrasive wheel....*544
Acklin Stamping metal awnings....*360
Acme air cooled transformer....*469
Electric transformer....*474
Acro Tool & Die master holder gage.... *90
Acromark Bench machine marks parts..*476
Die marks round stock....*192
Dies graduate, number handwheels, scales, guide bars....*196
Electric brander....*1406
Hand bench marker....*1198
Hercules holder....810, *1319
Inspector's stamps.... *40
Lettering and numbering machine...*538
Marking machine....*1048
Nut marking machine....*1400
Parts marking machine....*1392
Press embosses plates, parts, etc.... *88
Stamper marks enamel.... *38
Actuator, Micro....*1258
Adams fire, gas extinguisher....1198
Aero Speedball driving tool....*1255
Aero Tool—Countersink....*316
Precision plumb bob....*802
Rivet set....*480
Aget-Detroit dust collector....*194, *536
Ahlberg bearing washer....*982
Air conditioning—Maximum bomber production with a minimum of friction and strain. R. A. Steinbauer (Armament Section)....*513
Niagara Blower cold room air conditioners....*618
Air heater, Westinghouse....*318
Air raids—Office of Civilian Defense issues instructions for workers in air raids 34k
Plant protection.... 429
Westinghouse plant is prepared for a raid. P. E. Rosseau....*1419
Air Reduction Sales—Are you wasting oxygen?....*494
Air Reduction Tips.... 751
For oxyacetylene torches....*138

Aircraft Construction:
Aircraft-fixture foundations.... 955
Aluminum can be deep drawn. C. C. Misfeldt (Armament Section)....*285
Anti-aircraft gun recoil welding. J. L. Auer (Armament Section)....*1371
Automobile industry changes over to aircraft production.... 373
Briggs pushes production of aircraft parts....*184j
Buick aircraft engine production (Armament Section)....*393
Cannon for aircraft, International Harvester (Armament Section)....*715
Consolidated Aircraft's assembly line for bombers. J. M. Gwinn, Jr. (Armament Section)....*659
Conveyors save space in aircraft plant of Fleetwings. F. M. Bates (Armament Section)....*1244
Douglas Aircraft produces wings for the Flying Fortress (Armament Section)....*1509
Eastern Aircraft converts for war.*1528d
Flow production of aircraft manifolds. E. A. Moore (Armament Section)..*959
Ford expands customary changeover methods to build war products....*562
Ford's mass production methods used at Willow Run (Armament Section)....*1441
Germany's Henschel plane is made of metal stampings. P. H. Wilkenson (Armament Section).... *26
Great Britain converts chalk mine into aircraft factory....*304e
Hand fixture cuts fastener slots, North American Aviation (Armament Section)....*675
Heat-treatment of aluminum aircraft parts. T. E. Piper (Armament Section)....*1107
Jigs and dies from cast plastics, Lockheed, Vega (Armament Section)....*731
Landing gear for Curtiss planes. Jule Bemb....*115
Low-cost dies for aircraft parts. Benhardt Schlenzig (Armament Section)....*1307
Maximum bomber production with a minimum of friction and strain. R. A. Steinbauer (Armament Section)....*513
Menasco's air-cooled engines for airplanes. J. E. Babcock (Armament Section).... *20
Nash-Kelvinator finds automotive practices effective in producing airplane propellers....*599
North American's Mustang manufacturer. Gary Stroh (Armament Section)....*905
Northrop Aircraft develops heliarc welding process....*1043
Northrop Aircraft duplicates plane templets by etching. Gibian & Chatten (Armament Section)....*676
Packard speeds output of aircraft and marine engines....*602
Punches cut their own dies, Lockheed Aircraft. John Haydock....*815
Republic Aviation builds fighter planes. O. G. Pyler (Armament Section)....*1173
Residual stress relieved in tierods... 703
Rolls apply paint to aircraft, Douglas Aircraft (Armament Section)....*730
Shakeproof cowl fastener....*688
Shop shots from aircraft plants.*770, *950
Spray booth gives quick quench to aircraft aluminum parts. R. B. Jackman....*1111
Three-dimensional views help unskilled workers....*505
Vega applies cast dies. J. A. Harris (Armament Section).... *15
Welding jigs for nacelle subassemblies. Paul Mitchell (Armament Section).*1114
Wright Aeronautical produces close-tolerance screw threads. P. S. Brown....*1151
Aircraft Machinery miller has horizontal, vertical spindles....*418
Ajax Electric carburizing furnace....*1064
Electrothermic brazing unit....*258
Allis-Chalmers electro-cooler for transformers....*1264
Motor stator protected by rib....*198
Proper care of V-belts. L. L. Smith.*1227
Substation....*622
Vari-pitch sheave....*918
Welding unit....*357
Alloy-Sprayer atomizer....*1048
Aluminum—Bend radii for sheet-metal forming (Ref. Bk. Sheets)....1039
Forging aluminum alloys. Herbert Chase, pt. 1, *491; pt. 2....*644
How to spot weld aluminum, pt. 1..*1487
Materials washer recovers aluminum from floor sweepings. McClelland Altemeier....*1295
Resistance welding of aluminum with stored energy. C. E. Smith....*375
American Brakeshoe & Foundry positive seal for transmission.... *88
American Foundry abrasive blast nozzle.. *88
Portable Wheelabrator....*694
American Gas heat-treater....*1064
American Gauge lapping plate....*1046
American Gear Manufacturers Association, Hershey, Pa., meeting....532d
Meeting....*1254m
American-LaFrance-Foamite carbon dioxide engine....*1138
Water nozzle....*804
American Machinist Metal Show number, Oct. 1, '42.
American micron hobbing machine....*356
American MonoRail crane.... 358
American Optical chrome leather finger guards....*1050
Respirator....*470
Welders garment....*1134
American Pulley hand truck....*1402
Type N pulley....*860
American Screw scrap drive helps plant efficiency....*1291
American Society of Mechanical Engineers meeting....*1254 1
New York meeting....*1460e
American Society of Tool Engineers meeting....*1254n
Ames, B. C., amplifying comparator....*139
Cotton bags....1266
Dial Test indicator....*358
Amic Comparator indicating dial....*422
Angle blocks for tool and die work. C. F. Fitz....*882
Angle plate for the shaper. Noah Deering....*114
Lombard Governor....*360
Anker-Holth airgrip chuck....*618
Universal chuck....*1404
Annealing machine, Morrison gas fired..*1534
Annealing and pickling brass shell cases, Hanson-Van Winkle-Munning....*744
Anvil, Scherr ball measuring....*1196
Apco Mossberg torque wrench....*1266

Apprentices, see Training
Apron immune to oil, Resistoflex....*542
Aptitude tests for women workers....*1280
Arbors, expanding, for lathe work. J. G. Jergens....*438
Arcadia thermoplastic tubing.... *88

Armament Section:
Aircraft engines by Buick....*393
Allison set for peak production....*165
Aluminum can be deep drawn. C. C. Misfeldt....*285
Automotive methods on Oerlikon guns.... *65
Behind the Luftwaffe. P. H. Wilkenson.... *26
Belt conveyor helps beat the Axis...*912
Bombers get the green light. R. A. Steinbauer....*513
Bombers on parade. J. M. Gwinn, Jr....*659
Cannon for aircraft....*715
Converted lathes machine high explosive shell....*335
Conveyors save space in aircraft plant. F. M. Bates....*1244
Dies for stirrup springs....*1522
Fixtures for checking aircraft engine castings. Herbert Chase....*127
Flow production of aircraft manifolds....*959
Gage and cutter conservation in Canada....*233
Gun slides for the Navy....*1520
Hand fixture cuts fastener slots, North American Aviation....*675
Heat-treatment of aluminum aircraft parts. T. E. Piper....*1107
How Kaiser builds Liberty ships....*1299
How to machine cast armor plate. F. W. Lucht....*1023
Jugs and dies from cast plastics....*731
Landing gear for fighting planes. Jule Bemb....*115
Line production of shell cases.... *521
Low-cost dies for aircraft parts. Benhardt Schlenzig....*1307
Machine guns from "task" operations.*404
Making the Bren breech block....*290
Menasco aids Air Corps training. J. E. Babcock.... *20
Notes on shell forging. J. B. Nealey.*1383
Operations on 37-mm H. E. shell....*837
Percussion fuze for small shell....*447
Plane templets duplicated by etching. Gibian & Chatten....*676
Positive stripper for shells. R. I. Miner....*1250
Radiant heat dries helmet liners....*970
Rolls apply paint to aircraft parts...*730
Seamless bombs from steel plate. J. B. Nealey....*117
Shell fuzes by the million....*775
Spray booth gives quick quench. R. B. Jackman....*1111
Tank engines made on converted equipment. T. F. Rogan....*1236
Three-way drill for fuze part....*462
Tooling for bombers at Willow Run..*1441
Tooling the Mustang (North American Aviation). Gary Stroh....*905
Unleashing the thunderbolt. O. G. Pyler....*1173
Vega applies cast dies. J. A. Harris.. *15
Welding jigs for nacelle subassemblies. Paul Mitchell....*1114
Welding plays top role in anti-aircraft gun recoil. J. L. Auer....*1371
Wings for the Flying Fortress....*1509
Aro Equipment air drill....*1052
High pressure lubricator....*478

Arsenals:
Watervliet Arsenal mills steel with sintered carbides. Capt. E. G. Moffat....*933

(*) Illustrated (ed) Editorial

Artus Spacers—plastic spacers..... 626
Athea skin lotion..... 478
Automatic Machine lathe turrets.....*1138
Automatic Transportation lift truck.....*258
Automotive Maintenance Machinery.....*1044
Auto-Ordnance "Thompson" milling fixture *858

Automobile Manufacture:
Buick Motor Co.—motor cars to munitions *574
Cadillac Motor Car—motor cars to munitions *578
Chevrolet motor—motor cars to munitions *581
Chrysler proceeds from motor cars to munitions *549
Fisher Body—motor cars to munitions *586
Ford expands customary changeover methods to build war products....*562
General Motors—motor cars to munitions *573
Hudson Motor Car—motor cars to munitions *595
Motor cars to munitions, June 11, S 1-16.
Nash-Kelvinator finds automotive practices effective in producing airplane propellers *599
Oldsmobile—motor cars to munitions.*588
Packard Motor Car—motor cars to munitions *602
Plymouth speeds from motor cars to munitions *134e
Pontiac Motor—motor cars to munitions *592
Retooling of automobile factories for defense production. Burnham Finney *61
Studebaker—motor cars to munitions.*605
Willys-Overland motor cars to munitions *609
Automotive Maintenance hone.....*690
Machinery precision shaper.....*355
Avery Adhesives dry sticker.....*198
Aviation Corp.—written tests aid workers evaluation *1165
Awards—Army-Navy "E" awards.....*974d *1042d, *1126 1, 1192 1, 1254d, 1390d
Colvin awarded Worcester Reed Warner medal *1460d
WPB honors war workers for suggestions that improve production....1192n
Awnings, Acklin metal.....*360
Axelson Machinery—testing gear boxes..*821

B

Babbitt machined with wide tool. Arthur Havens *113
Bags, Ames cotton.....1266
Baker-Rauling industrial truck care pays dividends 1226
Locomotive type crane truck.....*1198
Balancing—Bear Dy-namic balancer....*1264
Gisholt portable balancing unit.....*743
Globe Tool dynamic balancing machine *36
Roller-Smith precision balances.....*1400
Westinghouse Electric portable balancer *139
Baldor industrial battery charger.....*422
Baldwin hydraulic press bends pipe.....*1052
76-ton draw press.....*1050
Southwark piercing press for shell work *800
Shell testing press.....*85
Baldwin spot weld tester.....*1392
Bancroft chemical extinguisher.....*1476
Bantam Bearings retaining rings spot-welded *748
Bar and tube straightening, polishing machine, Medart *802
Bar stock or seamless tube—relative cost? *767
Barber-Colman "Microtrol" operated butterfly valves *620
Motorelay *1326
Bargar Sheet Metal machinery guards... *94
Barnes Co., W. F. & John, drilling and boring machine *35
Deep hole drilling and boring machine *1391
Barnes Drill self-oiling hone.....*618
Vertical honing machine.....*1531
Barney Machinery heavy machines for shell production *249
Barnes precision cutter grinder.....*355
Barrel lifter, Falstrom.....*86
Stand, Western Machine.....*260
Truck for air raids, Specialties Mfg. *808
Barry-Wehmiller metal cleaner.....*1470
Bassick floor truck lock.....*746
Baush horizontal borer.....*416
Bear Dy-namic balancer.....*1264

Bearings:
A.B.E.C. lubricants for ball bearings (Ref. Bk. Sheets), pts. 1 & 2..... 681
Ahlberg bearing washer.....*982
Bantam Bearings retaining rings spot-welded *748
Keystone Carbon porous iron bearings *262
R-S standard bearing covers.....*750
Timken produces parts 10 inches in diameter *533
V-blocks center engine bearing. Fred Colvin *774
Beatty Machine & Mfg. hydraulic extruding press *799
Hydraulic forming press.....*686
Bee Line shaft straightener.....*858
Behr-Manning coated abrasives.....*1068
Bell & Gossett Kleen-well strainer.....*1542

Belting:
Clark leather V belting.....1339
Cutting belts for lacing. J. E. Hyler 1438, 1508
Goodyear V-belt with cover.....*480
Hewitt conveyor belt of non-oil resistant rubber *1474
Proper care of V-belts. L. L. Smith.*1227
Uskon conductive rubber belting, U. S. Rubber 696
V-belt provides self-energizing brake. J. F. Cavanagh.....*1021
Bench block, Challenge.....*362
Bending—Bend radii for sheet-metal forming (Ref. Bk. Sheets).....1039
O'Neil-Irwin D-Acro bender and brake *860
Tal's Prestal bending machine.....*928
Bendix Aviation Kwik-Klips *190
Benjamin fluorescent unit..... *92
Berco compact cutter grinder.....*1538
Berger-Bricker calculator *1540
Berkeley Equipment tank welder.....*468
Bijur solenoid lubricator.....*748
Binks Mfg. can adapter..... 626
Spray finishing machine.....*619
Spray gun for cleaning fluid.....*692
Bins—Bins on dollies. Heiman & Westmoreland *1294
Gordon Hall assembly bin.....*357
Stackbin hopper-front storage bins..*140
Black & Decker gage shear.....*922
Holguns for heavy drilling.....*142
Black Drill hardsteel toolbits.....*1138
Reamer of hard steel..... *40
Blackmer Pump basket-type pipe strainer.*310
Direct-connected rotary pump.....*312
Rotary pump 627
Blackout bulb, Wabash Appliance.....*474
Shades, Higgin *262
Blade, Felker Rimlock cutoff.....*1540
Blake portable dust collector..... 469
Sensitive drill press.....*1466
Blank & Buxton index mill.....*533, *1324
Model Index vertical miller.....*1529
Blast cleaning with Wheelabrator.....*694
Bliss-Consolidated inclinable press.....*1466
Double action toggle press.....*...*924
Hydraulic heading press.....*413
Semi-automatic hot molding press.*1322
Blount headstock-type lathe.....*1264
Motor-in-leg lathe *1196
Wet grinder *1398
Wet tool grinder.....858, *976, *1127
Blowers, Lau single inlet.....*986
Blueprint dryer, Warren Electric Appliance *922
Blueprints—Three-dimensional views instead of blueprints *505
Boilers—Welding stainless pressure vessels. G. H. Sandberg.....*293

Bolts:
Bolt, nut and screen inspection.....*496
Hot heading to make certain kinds of bolts. Herbert Chase.....*952
Locomotive bolts made on turret lathe. J. E. Carroll.....*500
Set in masonry. T. H. Duffy.....*349
Uses for scrap superheater unit bolts. Arthur Lawrence 1022

Book Reviews:
A.S.T.M. standards on copper and copper alloys 146
Aircraft engine design. Joseph Lifton 756
Aircraft engine drafting-room practice 369
Aircraft engine trouble shooting chart. Andrew Wallace.....1211
Aircraft handbook. F. H. Colvin... 265
Aircraft riveting fundamentals. G. E. Tabraham 867
American diesel engines. E. F. Goad.1549
American industry in the war. B. M. Baruch 96
American standard definitions of electrical terms 993
Angular circle indexing calculations 145
Blueprint reading. A. A. Dick..... 266
Blueprint reading for the metal trades. De Vette & Kellogg.....1210
Breaking the skilled labor bottleneck. E. G. Benje.....1208
Die design and estimating. Bohmer & Dannes 268
Diesel vehicles ed. by F. J. Camm..1208
Dimensional control. W. W. Burden 484
Elementary metallurgy. W. T. Frier.1414
Employee training. A. M. Cooper... 635
Engineering questions and answers.1145
Flight: meteorology and aircraft instruments. Wright, Dyer & Martin. 146
Fluorescent lighting manual. C. L. Amick 864
Foundry work. R. E. Wendt..... 756
14,000 gear ratios. R. M. Page..... 865
Fundamentals of industrial psychology. Albert Walton..... 149
Gages and their uses in inspection. F. H. Colvin..... 268
General trade mathematics. E. P. Van Leuven 634
Getting things done in business. E. B. Wilson 320
Handbook of mechanical design. Nordenholt, Kerr & Sasso..... 757
How to conduct conference. A. M. Cooper 1059
How to prepare a foreman's policy manual. R. C. Oberdahn..... 485
ISA tolerance system..... 930
Industrial accident prevention. H. W. Heinrich 148
Industrial drawing. H. R. Thayer..1211
Industrial management. R. G. Anderson 1548
Industrial supervision. Schaefer & Wissler 146
Industrial supervision—controls. V. G. Schaefer 145
Instruction of welding operators....1144
Job training units.....866, 1271
Lessons in practical arc welding. W. J. Chaffee..... 755
Machine shop mathematics. Aron Axelrod 484
Machine shop practice. Hagberg, Corrington & Biehler..... 992
Machine speeds and feeds.....1344
Machine tools at work. C. O. Herb.634
Magnetc tools and appliances. E. Molloy 755
Manual of instruction in welding and cutting. B. E. Rossi..... 483
Manufacturing processes. M. L. Begeman 635
Mathematics of the shop. F. J. McMakin 367
Mechanical drawing. Ervin Kenison.1482
Mechanical properties of materials and design. Joseph Marin..... 200
Metallurgy. C. G. Johnson..... 757
Milling machine indexing. C. A. Felker 485
Molding technique for bakelite and vinylite plastics 320
Motion study for the supervisor. N. R. Bailey 1549
Oil burner handbook. L. J. Whelan.. 758
Optimum hours of work in war production. Brown & Baker..... 633
Organization and training of industrial fire brigades. J. C. Klinck..1413
Personnel selection by standard job tests. C. A. Drake.....1272
Photoelastic study of stresses in gear tooth fillets. Dolan & Broghamer.1210
Pilots' and mechanics aircraft instruction manual. G. C. DeBaud.. 267
Plane trigonometry made plain. A. B. Carson 758
Plant engineer's manual. E. Molloy.1413
Plant protection. E. A. Schurman..1058
Plastic catalog 370
Plastic molding. E. A. Dearle..... 368
Plastics. J. H. DuBois..... 931
Pneumoconiosis: the story of dusty lungs. L. G. Cole..... 369
Possible alternates for nickel and chromium-nickel constructional alloy steels 368
Practical arc welding. W. J. Chaffee 96
Practical mechanics handbook. F. J. Cramm 1144
Production control. L. L. Bethel & others 266
Production engineering. Earl Buckingham 633
Safety supervision. V. G. Schaefer.. 147
Science and practice of welding. A. C. Davies..... 370
Sheet-metal pattern drafting. F. J. O'Rourke 864
Shop theory—Henry Ford School.. 147
Simple blueprint reading..... 148
Spot welding of aluminum alloys..1145
Surface finish. Dr. George Schlesinger 1482
Swedish collective bargaining system. P. H. Norgren..... 149
Technique of executive control. E. H. Schell 367
Theory and practice of job rating. Stigers & Reed.....1143
Trade and job analysis. V. C. Fryklund 865
Wage incentive methods. C. W. Lytle 267
Welding. J. A. Moyer.....1058
Welding handbook 930
Welding standards 1059
Work routing, scheduling, dispatching and production. Younger & Geschelin 265
Workshop sense. W. A. J. Chapman 483
Booth, Acousti-, Burgess.....*357

Boring and Boring Machines:
Baush horizontal borer.....*416
Boring bar clamped against flat side. Donald Raeburn *712
Boring bars, pilots, special tools. J. C. Jergens.....*280
Carboloy boring tools 1052
Century bench boring machine.....*1391
Clayton boring bar lock.....*194
DeVlieg Jigmil *1319
Double-end machine for headstocks. Axelson Mfg. *878
Giern & Anholtt Tool horizontal borer *137
Gisholt Machine boring bar.....*142
Holder for small boring bars. M. H. Ball *836
Holder handles heavy-duty boring. W. A. Rowell.....*445
Improvised boring machine built from scrap. William Dzus.....*1363
Industrial cutter pilot for deep hole boring *1534
Landis shell boring equipment.....*416
Linley miller and jig borer.....*1130
National Engineering Walker boring bar holder *472
Non-deforming cylinder boring chuck. C. T. Packer.....*834

(*) Illustrated (ed) Editorial

Simmons Machine Tool horizontal borer *188
Stamets boring, facing and tapping machine *917
Tool holder for heavy-duty boring. I. K. Daniels.... 164
Two-tool boring bar. T. H. Weller..*1232
V-blocks center engine bearing. Fred Colvin *774
Vernon vertical jig borer.... 627
Yoder horizontal boring mill....*1046
Borm pneumatic hammer....*424
Box tool for screw machine, Boyer-Schultz *316
Box, Truscon corrugated steel....*260
Boyer-Campbell magnifying lenses....*982
Boyer-Schultz box tool for screw machine *316
Burnishing tool *748
Screw machine tool....*1534
Bradford "Metalmaster" lathes.... *85
Bradley & Son, C. C. miller takes climb-milling cuts *250
Brake bends sheets. O'Neil-Irwin....*1544
Brand Tool & Supply precision hole tapper *854

Brazing:
Army field stove assembled by silver brazing. Herbert Chase....*1426
Carbide tips to tool shanks. H. R. James *1365
Unit, Ajax Electrothermic....*258
Breuer Electric etchers....*318
Vacuum cleaner *424
Warning siren *476
Writing tool marks metals....*416
Bridge to test capacitors, Industrial Instruments *474
Bristol pyrometer measures high furnace temperature *620
Broaching and broaching machines:
Castelated nuts on aircraft engine broached *651
Colonial Broach dual-ram broaching machine *186
Brown Instrument temperature control.. *38
Brush cleans rivet holes, Osborn.... *38
Osborn end *422
Osborn rotating Sibot....*1542
Brushes, fiber, Osborn....*256
Buda industrial truck....*142
Buehler wet power grinder....*1068
Buick Motor Co.—motor cars to munitions *574
Burcott white wiping cloths....1266
Burgess Battery Acousti-Booth....*357
Burndy Engineering cable disconnector..*984
Insulated connector *256
Qiklug for electric cable terminal connections *360
Burnishing tool, Boyar-Schultz....*748
Ohio carbon *1464
Burring machine, double-end, Pines Engineering *306
Tool. W. M. Peck....*1365
Tool, Nobur *696

Bushings:
Bushing puller. Noah Deering.....*163
Grease removes blind bushings. J. E. Hyler *835
Tool sets brass bushings. H. W. Stowell *1297

C

Cabinet, supply, Continental Machines Doall *314
Cable disconnector, Burndy....*984
General Electric Flamenol....*544
Holder, Patrick-McDermott *1544
Salvage machine....Aug. 20, adv. *75
Terminal connection, Burndy Qiklug.*360
Cadillac Motor Car—motor cars to munitions *578
Calculator, Berger-Bricker *1540
Interstate Sales *472
Calipers:
Offset caliper centers shafts for keyway milling. C. W. Leck....*112
Thickness calipers. Stanley Crawford *1366
Campbell, Andrew C.—abrasive cutting. H. G. Robinson, pt. 1, *206; pt. 2, *275; pt. 3....*332
Oscillating Cutalator *250
Cams—Methods of cam milling. H. A. Frommelt, pt. 1, *321; pt. 2, *386; pt. 3, *440; pt. 4, *502; pt. 5, *652; pt. 6....*709
Can adapter, Binks 626
Canada—Gage and cutter conservation in Canada (Armament Section)....*233
Carbide Fabricators offer tools for turning, boring, facing....*198

Carbides:
